

YEAR 6 TRIP TO FRANCE

Day 1 – Ship Ahoy!! On the first day of the French trip, all the girls boarded a ferry to France. For some, this was their first ever Channel crossing, for others, the prospect of on board shopping made the day.

After a very short journey from Calais, we reached Le Village de St Joseph, a model village, where we enjoyed a taste of how France was fifty to one hundred years ago.

Day2 – A huge highlight was the market where everyone spent most of their money on special gifts their family. Everyone loved a trip to the beach and had the best time, paddling in the sea. Last, but by no means least, was the sweet factory. Who knew there was so much sugar in a hard-boiled sweet!! Everyone even tried one or two! It was a great treat, which we all thoroughly enjoyed - definitely tastier than the snail tasting later that day!

Day 3 –our first activity was visiting a boulangerie, where we saw how bread was made and enjoyed some awesome pains au chocolat! Many of us will never forget our trip to see a massive bunker that, in World War 2 was built by the Germans to house and launch V2 rockets. Fortunately, it was bombed and destroyed by the allies before it became fully operational.

Everyone should definitely experience the French trip. It made learning fun and we all had lots of laughs along the way.
